PUOLUSTUSVOIMAIN LIPPUJHLA NICOSIASSA

YKSP 1 VIETTI 4 PV KESÄKUUTA 46:TTA
PUOLUSTUSVOIMAIN LIPPUJUHLAA.

Juhlallisuudet alkoivat KLO 0830 lipunnostolla pataljoonan Esikunnan läheisellä kentällä. Sitä seurasi kenttäjumalanpalvelus ja eversti Uolevi Kettisen puhe. Hän mainitsi puheessaan mm. seuraavaa: Suomen lipun värit ovat taivaansininen ja lumenvalkoinen.

MEASURES TO SAVE ORCHARDS.

During the past several weeks arrangements have been made by UNFICYP for the maintenance of citrus orchards belonging to Greek or Turkish Cypriots who have left their villages or have difficulties reaching their orchards.

Surveys were first carried out by UNFICYP in conjunction with the Food and Agricultural Organization (FAO) in all areas where citrus groves have been abandoned, such as Morphou, Lefka, Xeros, Laphos, Vasilia, Peristerona, Potamia and some villages in the Larnaca District.

Reports show that citrus trees are mostly intact, although there has been a little willfull damage, but water pumps and motors are missing from most orchards. Cultivation and irrigation were needed urgently.

Negotiations were undertaken with local authorities and representatives of citrus orchard owners to begin maintenance on the orchards. Arrangements were made in each case so that the necessary work in Turkish Cypriot owned citrus orchards would be done by Greek Cypriots living in the nearest village, and vice versa, against agreed payment by the owners.

It is expected that work will begin very shortly in all orchards concerned.

FINNISH ARMED FORCES DAY

On Thursday 4th June the Finnish Contingent celebrated Finland's Armed Forces Day. Outside the Finnish Contingents Headquarters men of the contingent saluted as the flag of Finland was raised.

After this ceremony there followed a service which included an address by the Contingent Commander Lt Col. U. Kettinen.

When the service was finished the soldiers were taken by lorry for a visit to Bellapais Abbey situated in the Kyrenia Range and over looking the northern coast of Cyprus.

POLICE DEPLOYMENT COMPLETE.

The five-nation UNFICYP Civilian Police consisting of 173 police officers completed their deployment throughout the island by Friday 5th June.

Its Headquarters is established at Wolsley Barracks in Nicosia.

The 33 Austrian and 40 Danish police, Commanded respectively by Inspector Friedrich Mosser and Superintendent Jorgen Sandholt, are deployed in the Nicosia Zone, including the city of Nicosia and the surrounding area as far south as Pelkhori and as far north as Kyrenia.

GALO PLAZA RETURNS

Mr Galo Plaza, the Secretary-General's Special Representative in Cyprus, returned to Cyprus on Sunday 31 May after a visit to New York and Ecuador. In New York he had talks on the Cyprus problem with U Thant, the Secretary-General.

The Australian Contingent of 40 whose Commander is Inspector Francis Holland, is operating in the Famagusta District in the East, and the Larnaca District in the South.

Responsible for the Limassol District in the South are 20 New Zealanders led by Inspector George Wells.

The Paphos District, on the Western side of the island in which the Swedish soldiers are carrying out their duties is also the area in which their fellow countrymen, the 40 Swedish Police Commanded by Superintendent Hans Largerhorn, have been deployed.

SWEET NATURED AUSTRIAN OFFICERS VISIT CYPRIOT CHILDREN

Lt Berger and Lt Bauemel, Austrian members of the UNFICYP Civilian Police, visited the Mana childrens' garden in Nicosia on Monday 1 June.

The childrens' garden was established in 1934 for working mothers and since the recent troubles the number of children has fallen from 130 to about 60.

The Austrian Officers went there to bring sweets from Austria for the Greek Cypriot children, whose thanks were expressed in laughing eyes and merry talking.

In the village of Louroujina sweets were also distributed by Austrians and this time to Turkish Cypriot children.

The Austrian Contingent hopes that such small actions will help to fulfil the tasks of UNFICYP.

Lt. Gerhard Berger (Austrian Police).

THE PHANTOM WALL HUNT GOES ON!

It was reported on Monday 1 June that a new object had appeared on the island, in the shape of a wall that moves.

This apparition has been seen by only the selected few and on one occasion actually ran into a Land-Rover! The driver maintains that the wall moved out into the road!

Those in high places are planning to form a patrol to hunt down the phantom wall, last seen on the Nicosia - Kyrenia road.

Further reports of this phenomena should be made to the MTO, HQ UNFICYP.

CYPRUSCOPE

In the various Headquarters of UNFICYP there is an air of expectancy and speculation, for in three weeks time the "three months" of UNFICYP draws to a conclusion. Before that time, however, the Security Council will meet to consider the role of UNFICYP and at this meeting the Secretary-General, U Thant, will make a report to the council which will outline the tasks and problems so far.

Despite difficulties, there is no doubt that UNFICYP has fulfilled its task well, within its terms of reference. Incidents have been fewer and less serious. There has been protection for harvesters and export convoys, thus helping towards the normalization of the island's economy. Plans for the reconstruction of damaged houses are under way. Close watch is being kept to report on the smuggling of arms.

Impartiality is one of the most important factors in the success of UNFICYP. The force is here to help restore peace and bring about conditions for a return to normality. The final solution of the Cyprus problem is a matter to be decided by the people of Cyprus. The role of UNFICYP is determined by the resolution of the Security Council of 4th March 1964 and by the principles of the United Nations Charter.

Fortunately in the past two weeks violence has eased somewhat in the island. If this pattern continues it will perhaps not be too late "to help the people of Cyprus to help themselves."

UNFICYP and Cyprus

Research is going on into connections between Cyprus and the countries represented in the United Nations Force in the island.

So far four connections have been established; a team from Sweden carried out important archeological discoveries on the island — a team whose patron is now the king of Sweden; many Cypriots have emigrated to Canada; a King of Denmark is buried on the island, and there have been strong links with Britain for many years.

In future issues each connection will be the subject of a feature article.

SÄKERHETSRADET

SAMMANTRÄDER

Vi har väl alla en stark känsla av att det relativa lugn, militärt sett, som just nu råder på Cypern, när som helst kan brytas i nya oroligheter. Och många har den åsikten att den avvaktande hållningen, som präglar skeendet på ön just nu, är beroende på att säkerhetsrådet inom kort skall behandla Cypernfrågan.

Det är dock inte bara Cypern-krisen som står på dagordningen vid detta tillfälle. Förhandlingarna beräknas starta den 8 juni och man börjar då med diskussioner kring rasproblemen i Syd-Afrika. Som andra punkt kommer sedan Laos-krisen och Cypern beräknas komma upp till diskussion omkring den 15

CYPRUS

The work of the United Nations Force in Cyprus since its information — as outlined by Gen Gyani's statement of 28th May — was reviewed.

CAMBODIA

The Security Council decided unanimously on the 4th June to send a three-member mission to Cambodia and the Republic of Vietnam to study means of preventing any recurrence of incidents reported there.

A separate vote was taken on a paragraph of the resolution adopted by the council, under which the council decided to send the mission to the area and have it report back in 45 days.

The president of the council, Arsene Assouan Usher of the Ivory Coast, said he would consult members of the council on the naming of the three members to be sent to the area.

LOCAL NEWS IN DANISH

Det danske kontingent har nu været sat ind paa sin tjeneste i mere end en uge, og man er godt på vej til at indrette sig under de nye forhold. Indenfor A-kompagniets sektor har man således fundet en bar med tilhørende svømmebassin, der efter lægens godkendelse har udviklet sig til et virkeligt fristed for vagtfrit mandskab. Skråt over for stabskompagniet er et der blevet åbnet en bar, der allerede er meget søgt. Om eftermiddagen præges gadebilledet i walled City af danske soldater, der orienterer sig om de muligheder, som forretningerne her paa stedet byder. Mange handlende påstår, at der er sket en mærkbar stigning i omsætningen i den sidste uge.

Lägetjeneste.

Det danske sanitetshold overtog fra søndag den 31 maj og for en 14-dages-periode lægevagten i Nicosia-distrikt. Opgaven er ved tilkald at behandle og transportere

patienter fra isolerede landsbyer til hospitaler i Nicosia. Der har allerede været adskillige udkald ofte til landsbyer, der ikke har set en læge i måneder. De forhold, der her møder de danske sanitetshold, er ofte meget nedslående, og det er hævet over enhver tvivl, at der på dette felt bliver gjort en indsats af stor humanitær betydning.

Spejdvognsdelingen.

Spejdvognsdelingen har i den forløbne uge varetaget eskorte-tjeneste og overvågning af høstarbejde. Nu føler man sig fortrolig med forholdene i området, og indsatsen medvirker til i muligt omfang at normalisere den daglige tilværelse i de mest isolerede landsbyer.

Rugbröd.

Det er en almindelig udbredt forestilling blandt danske såvel hjemme som i udlandet, at en "rigtig" dansker ikke kan leve en bestandig tilværelse i et lang tid af gan-

gen uden dansk rugbröd. Nöd-vendigheden af dansk rugbröd under disse klimaforhold er vel problematisk, men for dem, der eventuelt skulle föle savnet, er der håb forude.

Velfärdsofficeren, KN Schultz-Nielsen, har efter lang tids sögen faaet fat i en rigtig rugbrödsbager. Med engländerne er der truffet aftale om, at vi to gange om ugen kan bruge deres feltbageri i Dhekelia. Rugmelet skulle snart være undervejs. I löbet af ca. 14 dage skulle der være mulighed for atter at få rugbröd paa bordet.

Velfärd

Velfärdstjenesten er under hastig udbygning. En del er allerede sket. Velfärdsofficern er en af de travleste medlemmer af det danske kontingent. Midlerne et måske ikke altid de bedste, men saa meget större opfindsomhed bliver der udfoldet. Nu venter man blot på skib. En baad fra DFDS ventes til Cypern omkring den 10. og med den skulle komme hovedparten af velfärdsmaterialet, der omfatter alle typer spil og sportsudstyr. I förste omgang er det hensigten at arrangere sportskampe mellem de enkelte kompagnier, siden kan der måske komme konkurrencer med hold fra de andre kontingenter.

British Engines for Swedish Navy

Bristol Siddeley gas turbine engines are to be used in six torpedo boats, each capable of 40 knots, for the Swedish Navy.

Sappers in Thailand

Engineers of the Australian, British and New Zealand forces are building an airfield in the North-Eastern area of Thailand. Also helping them are men of the Royal Electrical and Mechanical Engineers who help to keep the heavy plant machinery in good order in the intense heat — which often rises to 105° in the shade.

Swedish National Day.

On Saturday 6th June the Swedish Contingent of UNFICYP celebrated Swedish National Day.

At Xeros a parade was held and the contingent was addressed by its commander Colonel Jonas Waern. Then followed a football match — the contingent cup-final between the Staff Coy and 1 Coy. The match was won by

Staff Coy 6-2. Staff Coy goals were scored by Major Angstrom—1, Sgt Hovenstam—3 and Pte Bergman—2. I Coy goals were scored by Pte Leijon—1 and Staff Coy put one in their own net.

In the evening a barbecue and party completed the celebrations.

U THANT TO REPORT TO THE SECURITY-COUNCIL.

Soon the Security-Council will meet to discuss the position of UNFICYP. At this meeting the Secretary-General, U Thant, will make a report on the Force during its stay in Cyprus. Part of his report is at present being drafted at a series of meetings attended by the Force Commander, Lt Gen. P. S. Gyani, his deputy Commander Maj-Gen R.M.P. Carver, his political advisor, Mr. Flores, and the Secretary-General's Special Representative in Cyprus, Mr. Galo Plaza.

OBSERVATION IN UNFICYP REDOUBLED.

Owing to the reported increase in the smuggling of arms into Cyprus the members of UNFICYP are redoubling their efforts to observe and report cases of the illegal entry of arms into the island. There will be patrols along the roads and beaches and special watches for air-drops particularly during the night.

UNFICYP has no powers to seize arms and all it can do is to report the matter to the Headquarters which in turn will inform the government.

Dummy Soldiers in Blast Test

In July this year 500 tons of TNT will be exploded at Suffield, an experimental station of the Defence Research Board at Ralston, Alberta, on the Western Prairies of Canada.

The purpose of the explosion is to test blast phenomena and ground shock effects on naval and army equipment and dummy soldiers.

The test will be carried out by Britain, Canada and the United States.

Territorial Paratroops to "invade" Denmark

Men of the 10th Battalion The Parachute Regiment (Territorial Army) in England, led by 32 year-old Major D. G. Gunn, recently assisted the Danish Army in simulating an invasion from the East. They took part in an airborne assault at dawn on Saturday 30th May on the island of Zealand, just south of Copenhagen.

Royal Canadian Dragoons

Rece Squadron, RCD is no stranger to the role of the United Nations. The squadron has already had two tours of duty with the UN in the Middle East, 1959-60 and 1962-63. One of the regiment's tank squadrons, "D" Sqn, served in Korea in 1954 and the 56 Canadian Rece Squadron, first to serve in the Middle East, had a 50% RCD membership. The present squadron is composed of a good portion of UN veterans. Major JA Beament, commanding the squadron, was the second-in-command of the 56 Canadian Rece Squadron and Capt JA Kisielius, his second-in-command, was the 25 Cdn Inf Bde Intelligence Officer in Korea 1953-54.

Before coming to Cyprus we were preparing for a commitment in the Middle East, a normal rotation of squadrons, but as fate had it we were sent and came willingly to this part of the world. Lt Fraser Webb and his troop were airlifted with members of the R22eR and 17½ hours after take-off found themselves in sunny Cyprus, while the remainder of the squadron came across on HMCS Bonnaventure. The squadron was reunited on 30 March 1964 at Famagusta, Cyprus.

The troops participate in such gallant roles as escorts to various cypriot groups through hostile regions, patrols

along strategic routes and dissuading warring factions from shooting each other by their physical presence in a battle area. The formation commander uses the squadron as a mobile reserve which can be quickly concentrated from any commitment and placed at his disposal within minutes of request. Rece Squadron has been the force that has decided many an issue on the island.

In operations the squadron supports the R22eR and HQ works out of Templestowe in the Kyrenia Pass. Three troops do daily patrols north south and west of the Kyrenia mountains, while the echelon remains in Nicosia and is the firm base from which vehicle operations begin and where troops carry out vehicle maintenance. In Templestowe the HQ element is comfortably living in tents beside a huge fish pond which also serves as a swimming pool on occasions. Our base camp is a group of seven bungalows where troops off a tour of duty may wash, rest in comfortable beds, eat off real tables and have hot meals cooked by a professional chef instead of a scout car driver.

The squadron is healthy and busy. It's performing like a well oiled precision instrument and is proud that it was chosen to make Canadian military history on the beautiful island of Cyprus.

LOCAL NEWS IN FINNISH URHEILUA

Pataljoonan piirissä tapahtuva urheilutoiminta alkaa päästä vähitellen alkuun. Pesäpallosarjat pyörivät täydellä vauhdilla ja koripalloa harjoitetaan innokkaasti. Myös lentopallossa alkavat kompanioiden joukkueet olla valmiita ottelemaan pataljoonan mestaruudesta. Pikajuoksijat ovat harjoitelleet jo pitemmän aikaan. Heillä oli tähtäimessä R.A.F.:in kentällä pidetyt eri YK:n pataljoonien väliset viestimestaruuskilpailut 4x110 yardin matkalla. Paikalle saapuivat kuitenkin vain suomalaiset ja niin kilpailut piti peruuttaa.

Famagustan merikerho kutsui eri pataljoonat ottamaan osaa Famagustassa 30-31.5. pidettäviin kisoihin. Vaikka kutsu saapui tavattoman myöhään, vain pari vuorokautta ennen kisojen alkua, onnistuttiin pataljoonasta saamaan kokoon joukkueet purjehdukseen, soutuun ja uintiin. Menestys oli kohtalainen huolimatta lyhyestä harjoittelujasta.

Purjehduksessa suoritettiin useita eri kilpailuja. Näissä 30.5 lt. Hagelberg sijoittui neljänneksi 9:stä eri kilpailijasta A-luokassa. F-luokassa taas kers Tanninen (5.K) ja kers. Suomela (EK) sijoituivat viidennelle sijalle 7:stä kilpailijasta. Suoritukset ovat hyviä kun ottaa huomioon, että pojilla oli vain noin tunti aikaa tutustua veneisiin ja Välimerellä purjehtimiseen. Samoin sunnuntaina sijoituivat kers. Tanninen ja jääk Olin (EK) viidenneksi (7 kilp.).

Soutukilpailu oli määrä suorittaa perämiehellisellä nelosella. Se, että vene oli sisähankainen helpotti soutujoukkueeseen valittujen sopeutumista veneeseen. Pojille suotua yhteensä noin kolmen tunnin harjoitusaikaa perjantaina ja lauantaina voidaan pitää täysin riittämättömänä niinkin teknillisessä lajissa kuin soudussa. Hyvin pojat kuitenkin soutivat ja joukkueemme sijoittui niukasti toiseksi Famagustan joukkueen jälkeen, jolla joukkueella on ollut aikaa harjoitella soutuja jo useamman kuukauden ajan. Joukkueessamme soutivat kers. Vennelä 3.K, sekä jääkärit Lähde HK, Nortamo 2.K ja Tiainen EK. Perämiehenä toimi jääk. Niklander EK:sta.

Sekä 440 ja 220 yardin uinnissa sijoituivat jääkärit Lahti 3.K, Ojanen 2.K ja Vänni 5.K toiselle, kolmannelle ja neljännelle sijalle mainitussa järjestyksessä. Mainittakoon että Famagustan merikerhon edustaja, joka voitti molemmat matkat, on kuulemma Kyproksen toiseksi paras ellei paras uimari. Toivotavasti pataljoona sijoittuu ja menestyy tulevissa kilpailuissa yhtä hyvin kuin tälläkin kertaa.
