UNICEF is providing emergency health care to 465,569 people, including 17,881 children under 5 years of age. UNICEF needs $12 million through December for the drought health response. Information up until 16/05/2022.
To address the cholera outbreak, UNICEF will:

- **Construct latrines for 30,000 families**
- **Strengthen Cholera Treatment Centres**
- **Procure WASH hygiene kits for 200,000 households**
- **Undertake hygiene awareness campaigns targeting 6 million people**

Information up until 16/05/2022
