HUMAN RIGHTS DUE DILIGENCE POLICY (HRDDP)

The AU-UN Joint Review for AMISOM that took place in March examined the progress made by AMISOM and the challenges faced in implementing accountability and compliance measures in line with Security Council Resolution 2431 and the obligations under HRDDP. Progress was noted in the implementation of key measures such as AMISOM’s Boards of Inquiry, human rights training, dissemination and adherence to AMISOM’s Rules of Engagement, prevention measures for civilian casualties caused by airstrikes, and the payment of amends under the Civilian Casualty Tracking and Response Cell (CCTARC) mechanism. A reduction of allegations of violations against AMISOM in 2018 compared to 2017 was also noted although more efforts are needed to institutionalize the measures and to support compliance within Somali security forces.

The children were victims of recruitment and use (253), abduction (156) killing and maiming (26) and rape and other sexual violence (22). Seven attacks on schools and two attacks on hospitals were also documented. AS was responsible for most of the violations (81%), unknown armed elements (7%), Somali Police (3% percent), Somali National Army (2%) and clan militia (2%), while the remaining violations were attributed to regional member state forces. During the same period, the CTFMR documented the detention of 17 boys by Somali Police forces and Somali National Army.
